

Emission Test Certificate

Friday, August 23rd, 2013

Supplier: FEKO Commercial Solutions Pty Ltd (391 Foleys Road, Deer Park VIC 3023)

Sample Description: versaTILE70 workstation

Date Tested: August 2013 (Tested by FORAY Laboratories – NATA Accreditation 1231)

Test Method: AFRDI Certification Program incorporating ASTM D5116 “Standard Guide for Small-Scale Environmental Chamber Determinations of Organic Emissions from Indoor Material/Products”.

Emission Data:

| | |
|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------|
| AFRDI Certification Program Emission Criteria for Furniture & Fittings | versaTILE70 |
| Powder coated aluminium & adhesive | <0.001 mg/m ² /hr |
| Decorated Particleboard (Laminex Vertiboard) Tested as per CV070820 | 0.15 mg/m ² /hr |
| <p>This product is designed to provide multiple workstations. Surface areas of each component were supplied by the client and based on these values the anticipated total volatile organic compound emissions would be below 0.5 mg/item/hr at seven days for a single workstation. When this product is used in the typical manner the resulting airborne total volatile organic compound concentration can be expected to be less than 0.5 mg/item/hr as specified by AFRDI.</p> | |
